

Doua boudokhan

SAP ABAP Developer

 firas.jelassi3706@istic.ucar.tn

 +216 96 378 300

 Tunisia - Manouba - Borj El Amri

Professional Summary

Experienced software developer with 2+ years of enterprise application development and strong expertise in Java, database management, and system integration. Proven track record in developing scalable applications, optimizing performance, and working with cross-functional teams. Seeking to leverage programming expertise and analytical skills in SAP ABAP development to deliver high-quality technical solutions.

Education

Bachelor's Degree in Computer Science

ISTIC (Institut Supérieur des Technologies de l'Information et des Communications), Borj Cédria

September 2022 – June 2025

Baccalauréat in Computer Science

June 2022

Professional Experience

Software Developer (End-of-Studies Internship) | Wi-Digital Group, Bizerte

February – June 2025

- **Requirements Analysis & Technical Feasibility:** Collaborated with functional teams to gather requirements for a multi-source weather monitoring application, evaluating technical feasibility and estimating development workload
- **Application Development:** Developed a Flutter mobile application with real-time data processing capabilities, following best programming practices and creating modular, reusable components
- **Database Optimization:** Implemented efficient SQL queries and data indexing strategies using PostgreSQL and SQLite, optimizing application performance and minimizing system load

- **System Integration:** Built interfaces between multiple data sources and backend systems using Supabase Edge Functions and Deno.js, ensuring seamless data flow and consistency
- **Testing & Documentation:** Performed comprehensive unit testing and created detailed technical documentation with proper code commenting
- **Performance Optimization:** Implemented Redis caching and offline data management to enhance application responsiveness and reliability

Software Developer (Improvement Internship) | Wi-Digital Group, Bizerte

July – August 2024

- **Enterprise Application Development:** Designed and implemented Java-based batch processing application using Spring Batch for automated data management
 - **System Architecture:** Deployed scalable solutions on AWS cloud infrastructure with automated job scheduling via EventBridge
 - **Cross-System Integration:** Developed ETL processes and data interfaces between enterprise systems, ensuring data consistency and information flow
 - **Containerization & Deployment:** Utilized Docker for application containerization and managed deployments on Linux (Ubuntu) with Nginx reverse proxy
 - **Agile Methodology:** Applied Scrum framework for project management, meeting deadlines and delivering results according to specifications
-

Technical Skills

Programming & Development

- **Core Programming:** Java, Java EE, Spring Batch, Python, C, SQL
- **Database Management:** PostgreSQL, MySQL, Oracle PL/SQL, SQLite
- **Web Technologies:** JavaScript, HTML/CSS, Angular, React.js
- **Mobile Development:** Flutter

Enterprise & Integration

- **Cloud Platforms:** AWS (Batch, EventBridge, ECR), Supabase
- **DevOps & Containerization:** Docker, Kubernetes, Nginx
- **Data Processing:** Hadoop, HDFS, MapReduce
- **Version Control:** Git, GitHub Actions
- **Caching & Performance:** Redis

Methodologies & Tools

- **Project Management:** Agile (Scrum)
 - **Testing:** Unit Testing, Integration Testing
 - **Documentation:** Technical Documentation, Code Commenting
-

Key Competencies

- **Analytical & Problem-Solving Skills:** Proven ability to debug complex technical issues and optimize system performance
 - **Requirements Gathering:** Experience translating user needs into technical specifications
 - **Communication Skills:** Fluent in Arabic (native), French, English, and German - excellent written and verbal communication
 - **Team Collaboration:** Strong interpersonal skills with experience working in cross-functional teams
 - **Time Management:** Demonstrated ability to prioritize tasks, meet deadlines, and manage multiple projects
 - **Continuous Improvement:** Committed to learning new technologies and optimizing development processes
 - **Results-Oriented:** Track record of delivering high-quality solutions and achieving project objectives
-

Languages

- **Arabic:** Native
 - **French:** Fluent
 - **English:** Fluent (Professional level - reading, writing, speaking)
 - **German:** Fluent
-

Certifications

- **IBM Big Data Engineer Certificate** (2025)
-

Additional Activities

- **Active Member:** Elite Council – ISTIC Entourage
 - **Professional Development:** Regular participation in local hackathons and technology meetups
 - **Technical Research:** Continuous learning in enterprise architecture, cloud technologies, and system design
 - **Community Engagement:** Contributing to open-source projects and technical knowledge sharing
-

Career Objective

Seeking to transition my strong foundation in enterprise software development, database optimization, and system integration into SAP ABAP development. Ready to apply my analytical skills, programming expertise, and collaborative approach to deliver innovative SAP solutions that meet complex business requirements while maintaining high performance and reliability standards.
